Regled-Ronalds Wedding.

Many Millions.

He is "a Poor Player" and Scarcely The Three Men on Board Rescued Half Her Age.

The public announcement to-day of the Reglid-Ronalds wedding brings the of equal enjoyment in the same event. The actors of the town are very much amused and society, no doubt, is not little astonished. In the first place,

the bride is more than seventy years old, while the groom is still in his twenties. Further, the lady is the possessor of millions of money, while the gentleman is 'a poor player" of the proverbial for tune of that class. their circles for their eccentricities, and,

day last it New Rochelle by the Rev.
Dr. Davis, and the publication of the nupitals was made with due deliberation to-day.
Franklyn Reglid, as the groom is known in his profession, is a young actor, formerly connected with the companies of Augustin Daly, Stuart Robson and Rosina Vokes. As a light comedian he was clever and popular, and socially he has a wide acquaintance among members of the dramatic profession. He has a strongly marked taste for dress and adornment. The eminent alliance he has just made comes as a rare surprise to many of his stage conferrees, for from a purely wordly standpoint he has done very well indeed.

His bride is the widow of Thomas Lorillard Ronalds, who died nearly twenty years ago, leaving a fortune that is estimated in seven figures. The widow has maintained a city house at St West Forty-fifth street and a country place at Avenel, in New Rochelle, where the marriage occurred.

Although upwards of seventy years of age, the widow Ronalds has always preserved the best of health and most youthful of spirits. She is a large koman, with a fondness for the conspicuous styles, of a quarter of a century account of a quarter of a century account of a portion of the conspicuous styles, of a quarter of a century account of a portion of the post of the conspicuous styles, of a quarter of a century account of a portion of the same observed as her constant companion. The neighbors in Forty-fifth street, who cannot recover easily from their assonialment at the marriage, declare that they thought her young gentleman companion was her nephew.

Mrs. Ronalds had a box at the operalast Winter, and Reglid was nightly present with her. Her relatives and old family friends obtained the impression that Reglid was a protege, whose talents she was going to help to a profitable direction in the world.

The wedding itself is reported to have been a brilliant, s.,hough rather private event, and the few guests were given a feast and soiree to remember. The new-igent and the house in town is let.

are said to be figures of herself and her former husband.

Thomas Lorillard Ronalds was a grandson of the first rich Lorillard, whose numerous descendants and connections have maintained the fortune and honor of the house. Another member of the family is Pierre Lorillard Ronalds, whose wife is a leader of London society, and whose two sons, Lorillard and Reginald, are well known here and abroad. The widow of George Lorillard Ronalds, still another brother, is prominent in Parisian society. A sister was Mrs. Frederick Conkling, the mother of Alfred, Howard and Miss Laura Conkling.

Mrs. Thomas Lorillard Ronalds has had no children, and there has been an impression among acquaintances that her interest in her first husband's estate was only for the period of her life.

Mr. Regh's name was originally Charles Franklyn Dilger, but he changed it by permission of the courts to the snamental form of Reglid. He is commonly supposed to be an Englishman, but some Montreal people, who say they know him well, declare he was born in Brooklyn.

He has told friends since his marriage that he is very happy, and does not contemplate returning to the stage.

Less than fifty members were present when the House met at 12 o'clock today. There were the usual indications that Congress was on the eve of adjournment. Members were crowding eagerly about the area in front of the Bpeaker's desk with requests for unanimous consent for the passage of bills of local interest to them.

Mr. Sayers, Chairman of the Appropriations Committee, secured unanimous consent for the consideration of a bill appropriating \$9.000 for an additional force for the collection of internal revenue, and \$5,000 for carrying into effect the arbitration convention between the United State and Venezuela, signed at Caracas in January last. The only legislative matter pending on which action is hoped for is the alcohol bill, now before the Senate, but this appears to be affected by the Murphy resolution postponing all tariff legislation, and in any event the House would not be likely to defer adournment for it.

Members of the Ways and Means Committee sav they do not think the President will let the Tariff bill become a law until the last moment, in order that the customs officers may have all the information possible before putting the act nito effect.
